| Category                   | Antikörper                                                                                                                                                                                          |
| Application                | ELISA, WB                                                                                                                                                                                           |
| Species Reactivity         | Human                                                                                                                                                                                               |
| Product Description        | The original antibody was generated by assembling immunoglobulin VH and VL genes from clonal B cells found in the cerebrospinal fluid (CSF) of patients with clinically isolated syndrome (CIS).... |
| Clonality                  | Monoclonal                                                                                                                                                                                          |
| Clone Designation          | [CSF-scFv]                                                                                                                                                                                          |
| Pubmed                     | <a href="https://pubmed.ncbi.nlm.nih.gov/17015754">https://pubmed.ncbi.nlm.nih.gov/17015754</a> target=_blank rel=nofollow>17015754                                                                 |
| UniProt                    | <a href="https://www.uniprot.org/entry/P60174">P60174</a>                                                                                                                                           |
| Buffer                     | PBS with 0.02% Proclin 300.                                                                                                                                                                         |

|        |                           |
