| Manufacturer               | Echelon Biosciences                                                                                                                                                                                                                                                     |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                                       |
| Product Description        | LY294002 (PI3-K Inhibitor) is a selective, cell permeable, potent and specific inhibitor of phosphatidylinositol 3-kinase ( $IC_{50} = 1.4 \mu M$ , purified PI 3-kinase). It does not significantly inhibit PKC, PKA, MAP kinase, S6 kinase, EGFrK, c-src kinase, P... |
| Application Notes          | Categories: Biochemical Reagents. Related: Inhibitor, PI3K. Ship 1 : Shipping Temp. Ship 2: Ambient Temperature                                                                                                                                                         |
