| Manufacturer               | Krishgen Biosystems                                                                                                                                                                                                                                           |
| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | The GENLISA Human Methylenetetrahydrofolate Reductase (MTHFR) ELISA includes features like: Ready to use protocol with break-apart wells for ease of use Standardisation and High Reproducibility Lot to Lot Consistency Accuracy and Precision Validated ... |
| Range                      | 62.5 - 4000 pg/ml                                                                                                                                                                                                                                             |
| Sensitivity                | 31 pg/ml                                                                                                                                                                                                                                                      |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. For tear samples, please connect with us to discuss further.                                                                                            |
| Application Notes          | Colorimetric, Absorbance measured at 450nm                                                                                                                                                                                                                    |
