| Manufacturer               | Krishgen Biosystems                                                                                                                                                                                                                                          |
| Category                   | Kits/Assays                                                                                                                                                                                                                                                  |
| Species Reactivity         | Human                                                                                                                                                                                                                                                        |
| Product Description        | The GENLISA Human CIDE-B ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated against seven points for a "... |
| Range                      | 8 - 2000 ng/ml                                                                                                                                                                                                                                               |
| Sensitivity                | 6 ng/ml                                                                                                                                                                                                                                                      |
| Samples                    | Serum, Plasma, Cell Culture Supernatant and other biological samples. Validated for citrated/EDTA Plasma only.                                                                                                                                               |
| Application Notes          | Colorimetric, Absorbance measured at 450nm                                                                                                                                                                                                                   |
