| Product Description        | This gene encodes a member of the membrane-associated guanylate kinase (MAGUK) family. It heteromultimerizes with another MAGUK protein, DLG2, and is recruited into NMDA receptor and potassium channel clusters. These two MAGUK proteins may interact a... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
