## Product Datasheet

### **Recombinant Mouse Annexin A5 (Anxa5) Protein, Transfected HEK293 Cell Culture Supernatant RAY-230-20293-200**

Article Name	Recombinant Mouse Annexin A5 (Anxa5) Protein, Transfected HEK293 Cell Culture Supernatant
Biozol Catalog Number	RAY-230-20293-200
Supplier Catalog Number	230-20293-200
Alternative Catalog Number	RAY-230-20293-200
Manufacturer	RayBiotech
Category	Proteine/Peptide
Species Reactivity	Mouse
Product Description	Recombinant mouse Anxa5 protein, secreted from the serum-free medium of transfected HEK293 cells. Purchase will also include one vial of normal control (Catalog . 230-20001), the culture supernatant of HEK293 cell transfected with empty expression ve...
Molecular Weight	Recombinant protein product has a calculated molecular mass of 36 kDa.
Tag	His
Expression System	HEK293 cells

Purity	Unpurified cell culture supernatant. HEK293 cells grown in serum-free medium were transfected with expression vector harboring target gene. The cell culture was harvested with centrifugation to remove cells. The cell culture supernatant containing mammalian cell protease inhibitor cocktail was aliquoted and stored at -80C immediately. The gene overexpression in culture supernatant was confirmed by Western blotting using anti-His tag antibody and/or target-specific antibodies and the culture supernatant derived from HEK293 cells transfected with the empty expression vector was used as a negative control.
Form	Pink liquid
Sequence	Ala2-Asp319
Formula	Cell culture supernatant of transfected HEK293 cells, serum-free.
