| Article Name               | Recombinant Human Androgen Receptor Protein                                                   |
| Biozol Catalog Number      | RAY-RB-14-0003P-50                                                                            |
| Supplier Catalog Number    | RB-14-0003P-50                                                                                |
| Alternative Catalog Number | RAY-RB-14-0003P-50                                                                            |
| Manufacturer               | RayBiotech                                                                                    |
| Category                   | Proteine/Peptide                                                                              |
| Species Reactivity         | Human                                                                                         |
| Product Description        | Recombinant Human Androgen Receptor...                                                        |
| Molecular Weight           | The predicted protein size is 62 kDa, but the actual molecular weight is ~75 kDa.             |
| Tag                        | His                                                                                           |
| Expression System          | E. coli                                                                                       |
| Purity                     | SDS-PAGE under reducing conditions and visualized by Coomassie blue staining                  |
| Form                       | Lyophilized powder                                                                            |
| Sequence                   | Met1-Lys557                                                                                   |
| Formula                    | Lyophilized from a 0.2 µm filtered solution of 0.1 M NaHCO <sub>3</sub> , 0.5 M NaCl, pH 7.5. |

Application Notes

Briefly spin the vial and bring the contents to the bottom prior to opening. It is recommended to reconstitute at 0.5 - 1.0 mg/mL with sterile deionized water or 1x PBS.
