| Product Description        | RayBio Human IL-36 beta (IL-1 F8) ELISA Kit for Cell Culture Supernatants and Serum samples. Lead time: Typically ships within 1-2 business days. No Friday shipments.... |
| Range                      | 6.4 pg/ml - 2000 pg/ml                                                                                                                                                    |
| Sensitivity                | 6.4 pg/ml                                                                                                                                                                 |
| Form                       | 96-well Microplate                                                                                                                                                        |
| Samples                    | Cell Culture Supernatants, Plasma, Serum                                                                                                                                  |
| Target                     | IL-36 beta (IL-1F8 / IL36B)                                                                                                                                               |
| Application Dilute         | 2-20 fold                                                                                                                                                                 |
| Application Notes          | Colorimetric                                                                                                                                                              |
