| Category                   | Kits/Assays                                                                                                                                                                                                     |
| Product Description        | The RayBio Calcium Colorimetric Assay Kit provides a simple, reproducible, and sensitive tool for measuring calcium concentration in plasma, serum, cell lysates, urine and other biological liquid samples.... |
| Range                      | 0.048 mg/dL - 3 mg/dL                                                                                                                                                                                           |
| Sensitivity                | 0.048 mg/dL                                                                                                                                                                                                     |
| Form                       | 96-well Microplate                                                                                                                                                                                              |
| Samples                    | Plasma, Serum, Tissue Lysates, Cell Lysates, Urine                                                                                                                                                              |
| Target                     | Calcium                                                                                                                                                                                                         |
| Application Notes          | Colorimetric                                                                                                                                                                                                    |
