| Manufacturer               | RayBiotech                                                                                                        |
| Category                   | Proteine/Peptide                                                                                                  |
| Species Reactivity         | Mouse                                                                                                             |
| NCBI                       | <a href="#">12475</a>                                                                                             |
| Expression System          | Chinese Hamster Ovary Cells                                                                                       |
| Form                       | Sterile Filtered White lyophilized (freeze-dried) powder.                                                         |
| Formula                    | CD14 was lyophilized from a concentrated protein solution (1 mg/ml) containing phosphate-buffered saline, pH 7.2. |
| Application Dilute         | ELISA. Inhibition Assays. Western Blotting.                                                                       |
