## Product Datasheet

### Soluble CD-40 Ligand/TRAP, Mouse Recombinant RAY-228-10197-3

|                            |                                                                                                               |
|----------------------------|---------------------------------------------------------------------------------------------------------------|
| Article Name               | Soluble CD-40 Ligand/TRAP, Mouse Recombinant                                                                  |
| Biozol Catalog Number      | RAY-228-10197-3                                                                                               |
| Supplier Catalog Number    | 228-10197-3                                                                                                   |
| Alternative Catalog Number | RAY-228-10197-3                                                                                               |
| Manufacturer               | RayBiotech                                                                                                    |
| Category                   | Proteine/Peptide                                                                                              |
| Species Reactivity         | Mouse                                                                                                         |
| NCBI                       | <a href="#">21947</a>                                                                                         |
| Expression System          | E. coli                                                                                                       |
| Purity                     | Greater than 98.0% as determined by:(a) Analysis by RP-HPLC.(b) Analysis by SDS-PAGE.                         |
| Form                       | Sterile Filtered White lyophilized (freeze-dried) powder.                                                     |
| Sequence                   | The sequence of the first five N-terminal amino acids was determined and was found to be Met-Gln-Arg-Gly-Asp. |
| Formula                    | Lyophilized from a sterile concentrated solution (1mg/ml) with 10mM Sodium Phosphate pH=7.5.                  |
