### Cytomegalo Virus Pp28 (UL99) Recombinant RAY-228-10256-2

|                            |                                                                                                                                     |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Article Name               | Cytomegalo Virus Pp28 (UL99) Recombinant                                                                                            |
| Biozol Catalog Number      | RAY-228-10256-2                                                                                                                     |
| Supplier Catalog Number    | 228-10256-2                                                                                                                         |
| Alternative Catalog Number | RAY-228-10256-2                                                                                                                     |
| Manufacturer               | RayBiotech                                                                                                                          |
| Category                   | Proteine/Peptide                                                                                                                    |
| Expression System          | E. coli                                                                                                                             |
| Purity                     | CMV Pp28 was purified by proprietary chromatographic technique.                                                                     |
| Formula                    | 25mM Tris-Hcl pH 7.2, 1mM EDTA and 50% glycerol.                                                                                    |
| Application Dilute         | CMV Pp28 antigen is suitable for ELISA and Western blots, excellent antigen for detection of CMV with minimal specificity problems. |
