| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Species Reactivity         | Rat                                                                                                                                                                                                                                                           |
| Product Description        | This GENLISA Rat High Mobility Group Protein 1 (HMGB1) includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated again... |
| Range                      | 31.2 - 2000 pg/ml                                                                                                                                                                                                                                             |
| Sensitivity                | 12.2 pg/ml                                                                                                                                                                                                                                                    |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
