| Species Reactivity         | Rat                                                                                                                                                                                                                                                           |
| Product Description        | This GENLISA Rat Nuclear Receptor Subfamily 3, Group C, Member 1 (NR3C1) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and P... |
| Range                      | 0.16 - 10 ng/ml                                                                                                                                                                                                                                               |
| Sensitivity                | 0.056 ng/ml                                                                                                                                                                                                                                                   |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
