| Product Description        | This GENLISA Rat Phosphorylated Microtubule-Associated Protein Tau (PMAPT /PTAU) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accura... |
| Range                      | 31.25 - 2000 pg/ml                                                                                                                                                                                                                                            |
| Sensitivity                | 12.64 pg/ml                                                                                                                                                                                                                                                   |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
