| Product Description        | This GENLISA Rat TAC1 (Protachykinin-1) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated against seven ... |
| Range                      | 4.69 - 300 pg/ml                                                                                                                                                                                                                                              |
| Sensitivity                | 2.813 pg/ml                                                                                                                                                                                                                                                   |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.                                                                                                                                                         |
