| Host                       | Mouse                                                                                                                                                                                                                                                         |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant fragment (around aa1-200) of human SERPINB5 protein (exact sequence is proprietary)                                                                                                                                                               |
| Product Description        | Maspin, a member of the serpin (serine protease inhibitor) superfamily encoded by the SERPINB5 gene, was originally identified in normal human mammary epithelial cells. Serpins are a protein family that regulate chymotrypsin-like serine proteases, pl... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [SERPINB5/12555]                                                                                                                                                                                                                                              |
| Molecular Weight           | 42kDa                                                                                                                                                                                                                                                         |
| Isotype                    | IgG2c                                                                                                                                                                                                                                                         |

|         |                                                                                                                                                                        |
