| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human FBLN3. Standards or samples are added to the micro ELISA plate wells and combined with the specific an... |
| Range                      | 1.56-100ng/mL                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.64ng/mL                                                                                                                                                                                                                                                     |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | FBLN3                                                                                                                                                                                                                                                         |
