| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | Porcine                                                                                                                                                                                                                                                       |
| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Porcine HSP90b1. Standards or samples are added to the micro ELISA plate wells and combined with the specifi... |
| Range                      | 0.78-50ng/mL                                                                                                                                                                                                                                                  |
| Sensitivity                | 0.29ng/mL                                                                                                                                                                                                                                                     |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | HSP90b1                                                                                                                                                                                                                                                       |
