| Species Reactivity         | Porcine                                                                                                                                                                                                                                                       |
| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Porcine IL-12B. Standards or samples are added to the micro ELISA plate wells and combined with the specific... |
| Range                      | 7.8-500pg/mL                                                                                                                                                                                                                                                  |
| Sensitivity                | 3.5pg/mL                                                                                                                                                                                                                                                      |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | IL-12B                                                                                                                                                                                                                                                        |
