| Manufacturer               | AcroBiosystems                                                                                                                                             |
| Category                   | Kits/Assays                                                                                                                                                |
| Species Reactivity         | E. coli                                                                                                                                                    |
| Product Description        | resDetect(TM) E. coli resDNA Quantitative Kit (qPCR) is expressed from E. coli . - Kits/Assays...                                                          |
| Form                       | Solid                                                                                                                                                      |
| Target                     | DNA                                                                                                                                                        |
| Application Notes          | The kit is used for quantitative detection of residual E. coli DNA in biopharmaceutical production. For use in quality control/manufacturing process only. |
