| Target            | Siglec-10                                                                                                                                                                                                                                                                                                                                                                                           |
| Application Notes | Flow Cytometry (Neutralizing assay), Please note that this product is NOT compatible to streptavidin detection system. Designed and validated to use together with CD24 overexpressing HEK293 cells. Not suitable to use together with overexpressing CHO cells for high non-specific background from proteins of high sialylation. Not recommended and validated to use together with tumor cells. |
