| Product Description        | Nucleocapsid (N) protein is the most abundant protein found in coronavirus. CoV N protein is a highly immunogenic phosphoprotein important for viral genome replication and modulation of cell signaling pathways. It was first identified by a research t... |
| Molecular Weight           | 43.2 kDa                                                                                                                                                                                                                                                      |
| Tag                        | N-6*His                                                                                                                                                                                                                                                       |
| NCBI                       | <a href="#">6</a>                                                                                                                                                                                                                                             |
| Buffer                     | 40 mM PB, 500 mM NaCl, pH7.4                                                                                                                                                                                                                                  |
| Purity                     | 95%                                                                                                                                                                                                                                                           |
| Form                       | Powder                                                                                                                                                                                                                                                        |
