| Product Description        | SUSD6 is a Type I transmembrane protein, the extracellular portion of which contains a characteristic Sushi domain (also known as a Complement Control Protein domain). This domain typically mediates proteinprotein interactions. Dysregulated expressio... |
| Molecular Weight           | 9.8 kDa                                                                                                                                                                                                                                                       |
