| Manufacturer               | Echelon Biosciences                                                                                                                                                                                                                                          |
| Category                   | Molekularbiologie                                                                                                                                                                                                                                            |
| Product Description        | The PI(3,4)P2 Mass ELISA measures the amount of PI(3,4)P2 extracted from cells by means of a competitive ELISA (96 well format). Assay Range: 300 to 1.23 pmol PI(3,4)P2 Sample Type: Dried down lipid extracted from cells Sample Volume: 120 µL/sample,... |
| Application Notes          | Categories: Bioassays & Kits. Related: ELISA, Lipid Detection, Phosphoinositides, PI(3,4)P2. Ship 1 : Shipping Temp. Ship 2: Gel Ice                                                                                                                         |
