| Product Description        | Recombinant Mouse Periostin/PN/POSTN Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Asn24-Ile653) of mouse Periostin/PN/POSTN (Accession NP_056599.1) fused with a 6*His tag at the C-terminus.... |
| Concentration              | < 0.1 EU/μg of the protein by LAL method.                                                                                                                                                                                                                 |
| Molecular Weight           | 70.64 kDa                                                                                                                                                                                                                                                 |
| Tag                        | C-His                                                                                                                                                                                                                                                     |

| Source                     | HEK293 cells                                                                                                                                                                                                                                              |

|                    |                                                                 |
|--------------------|-----------------------------------------------------------------|
| Purity             | 95% as determined by SDS-PAGE.                                  |
| Form               | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.    |
| Target             | Periostin/PN/POSTN                                              |
| Application Dilute | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.    |
| Application Notes  | ResearchArea: Cytokines & Cytokine receptors. Shipping: Ice Bag |
