| Category                   | Proteine/Peptide                                                                                                                                                                                                              |
| Species Reactivity         | Mouse                                                                                                                                                                                                                         |
| Immunogen                  | His20-Pro187                                                                                                                                                                                                                  |
| Product Description        | Recombinant Mouse VSIG4 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (His20-Pro187) of mouse VSIG4 (Accession NP_808457.1) fused with 6*His tag at the C-terminus.... |
| Concentration              | < 1 EU/μg of the protein by LAL method.                                                                                                                                                                                       |
| Molecular Weight           | 19.7 kDa                                                                                                                                                                                                                      |
| Tag                        | C-His                                                                                                                                                                                                                         |
| NCBI                       | <a href="#">278180</a>                                                                                                                                                                                                        |

| Source                     | HEK293 cells                                                                                                                                                                                                                  |

|                    |                                                              |
|--------------------|--------------------------------------------------------------|
| Purity             | 95 % as determined by SDS-PAGE.                              |
| Form               | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4. |
| Target             | VSIG4                                                        |
| Application Dilute | Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4. |
| Application Notes  | ResearchArea: Other Recombinant Protein. Shipping: Ice Bag   |
