| Article Name               | ELISA Kit for 1-Desamino 8D Arginine Vasopressin (DDAVP)                                             |
| Biozol Catalog Number      | USC-CEB841GE                                                                                         |
| Supplier Catalog Number    | CEB841Ge                                                                                             |
| Alternative Catalog Number | USC-CEB841GE-48, USC-CEB841GE-96                                                                     |
| Manufacturer               | Cloud-Clone                                                                                          |
| Category                   | Kits/Assays                                                                                          |
| Species Reactivity         | All                                                                                                  |
| Product Description        | 48T, 96T, 96T*5, 96T*10, 96T*100...                                                                  |
| Range                      | 246.9-20,000pg/mL                                                                                    |
| Sensitivity                | The minimum detectable dose of this kit is typically less than 90.9pg/mL                             |
| Samples                    | serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids |
| Application Notes          | Enzyme-linked immunosorbent assay for Antigen Detection.                                             |
