| Conjugation                | APC                                                                                                                                                                                                                                                           |
| Product Description        | RSPO1 is a member of the R-spondin family and encodes a secreted activator protein with two cystein-rich, furin-like domains and one thrombospondin type 1 domain. In mice, the protein induces the rapid onset of crypt cell proliferation and increases ... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
