### Goat Antiserum anti-Cat IgG (F(ab)2)-unconj., MinX none DNA-SEC-182413

|                            |                                                            |
|----------------------------|------------------------------------------------------------|
| Article Name               | Goat Antiserum anti-Cat IgG (F(ab)2)-unconj., MinX none    |
| Biozol Catalog Number      | DNA-SEC-182413                                             |
| Supplier Catalog Number    | SEC-182413                                                 |
| Alternative Catalog Number | DNA-SEC-182413                                             |
| Manufacturer               | dianova                                                    |
| Host                       | Goat                                                       |
| Category                   | Antikörper                                                 |
| Application                | ELISA,IHC,WB                                               |
| Species Reactivity         | Feline                                                     |
| Immunogen                  | Cat IgG F(ab)2 fragment                                    |
| Conjugation                | Unconjugated                                               |
| Format                     | Antiserum                                                  |
| Target Specificity         | IgG (F(ab')2)                                              |
| Cross-Adsorption (MinX)    | no cross-adsorbtion                                        |
| Clonality                  | Polyclonal                                                 |
| Concentration              | 90 mg/mL                                                   |
| Buffer                     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2 |

|                    |                                                                                                                                                                                                                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purity             | This product was prepared from monospecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-goat serum, Cat IgG, Cat IgG F(ab') <sub>2</sub> and Cat Serum. No reaction was observed against Cat IgG F(c). |
| Form               | Lyophilized                                                                                                                                                                                                                                                                               |
| Antibody Type      | Secondary Antibody                                                                                                                                                                                                                                                                        |
| Application Dilute | ELISA Dilution: 1:20,000 - 1:100,000, Immunohistochemistry Dilution: 1:1,000 - 1:5,000, Western Blot Dilution: 1:2,000 - 1:10,000                                                                                                                                                         |
| Application Notes  | Secondary antibody reagents are ideal for ELISA, western blotting, Immunohistochemistry, Fluorescence Microscopy, Flow Cytometry as well as other antibody detection methods.                                                                                                             |
