| Category                   | Antikörper                                                                                                                                                                                                                                       |
| Application                | ICC, IHC, IP                                                                                                                                                                                                                                     |
| Species Reactivity         | Bovine, Human, Primate                                                                                                                                                                                                                           |
| Immunogen                  | Native bovine cation independent (CI)-mannose 6-phosphate receptor                                                                                                                                                                               |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                     |
| Product Description        | Our Anti-M6PR chicken recombinant primary antibody from Aves Labs is produced in-house from hybridoma clone 2G11. It detects human, monkey, and bovine M6PR, and is purified by affinity chromatography. It is great for use in IHC, ICC, IP.... |
| Clonality                  | Recombinant                                                                                                                                                                                                                                      |
| Concentration              | 1 mg/mL                                                                                                                                                                                                                                          |
| Clone Designation          | [2G11]                                                                                                                                                                                                                                           |

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Molecular Weight   | 300 kDa                                                            |
| UniProt            | <a href="#">P08169</a>                                             |
| Buffer             | 1X PBS, 0.05% Sodium Azide pH 7.4                                  |
| Form               | Liquid                                                             |
| Target             | M6PR                                                               |
| Antibody Type      | Primary Antibody                                                   |
| Application Dilute | Dilution Range: IHC: 1:100-1:500. Dilution Range: ICC: 1:100-1:500 |
