| Alternative Catalog Number | NSJ-F50809-0.4ML                                                                                                                                                                                                      |
| Manufacturer               | NSJ Bioreagents                                                                                                                                                                                                       |
| Host                       | Rabbit                                                                                                                                                                                                                |
| Category                   | Antikörper                                                                                                                                                                                                            |
| Application                | ELISA, WB                                                                                                                                                                                                             |
| Species Reactivity         | Human                                                                                                                                                                                                                 |
| Immunogen                  | A portion of amino acids 221-249 from the human protein was used as the immunogen for this Cyclin C antibody.                                                                                                         |
| Product Description        | CCNC is a member of the cyclin family of proteins. This protein interacts with cyclin-dependent kinase 8 and induces the phosphorylation of the carboxy-terminal domain of the large subunit of RNA polymerase II.... |
| Clonality                  | Polyclonal                                                                                                                                                                                                            |
| UniProt                    | <a href="#">P24863</a>                                                                                                                                                                                                |
| Purity                     | Purified                                                                                                                                                                                                              |
| Form                       | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                            |
| Antibody Type              | Primary Antibody                                                                                                                                                                                                      |

|                    |                                                                                                                         |
|--------------------|-------------------------------------------------------------------------------------------------------------------------|
| Application Dilute | Western blot: 1:1000                                                                                                    |
| Application Notes  | Titration of the Cyclin C antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
