| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FACS, IHC-P, WB                                                                                                                                                                                                                                               |
| Species Reactivity         | Human, Rat                                                                                                                                                                                                                                                    |
| Immunogen                  | A portion of amino acids 69-98 from the human protein were used as the immunogen for the BCORL1 antibody.                                                                                                                                                     |
| Product Description        | The protein encoded by this gene is a transcriptional corepressor that is found tethered to promoter regions by DNA-binding proteins. The encoded protein can interact with several different class II histone deacetylases to repress transcription. Two ... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                    | <a href="#">Q5H9F3</a>                                                                                                                                                                                                                                        |
| Purity                     | Antigen affinity purified                                                                                                                                                                                                                                     |
| Form                       | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                    |
| Antibody Type              | Primary Antibody                                                                                                                                                                                                                                              |

|                    |                                                                                                                                                                                            |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Dilute | Western blot: 1:500-1:1000,Immunohistochemistry (FFPE): 1:50-1:100,Flow cytometry: 1:25 (1x10e6 cells)                                                                                     |
| Application Notes  | The stated application concentrations are suggested starting points. Titration of the BCORL1 antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
