| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | A recombinant full-length human protein was used as the immunogen for this recombinant Prolactin Receptor antibody.                                                                                                                                           |
| Product Description        | It recognizes a protein of 70kDa, identified as prolactin receptor. Prolactin is a pituitary hormone involved in the stimulation of milk production, salt and water regulation, growth, development and reproduction. The initial step in its action is th... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [rPRLR/742]                                                                                                                                                                                                                                                   |
| UniProt                    | <a href="#">P16471</a>                                                                                                                                                                                                                                        |
| Purity                     | Protein G affinity chromatography                                                                                                                                                                                                                             |

|                    |                                                                                                         |
|--------------------|---------------------------------------------------------------------------------------------------------|
| Form               | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                                          |
| Antibody Type      | Primary Antibody                                                                                        |
| Application Dilute | Immunohistochemistry (FFPE): 1-2ug/ml (not suitable for frozen tissues)                                 |
| Application Notes  | Optimal dilution of the recombinant Prolactin Receptor antibody should be determined by the researcher. |
