| Category                   | Antikörper                                                                                                                                                                                                                                                     |
| Application                | ELISA, IHC-P                                                                                                                                                                                                                                                   |
| Species Reactivity         | Human                                                                                                                                                                                                                                                          |
| Immunogen                  | A recombinant human partial protein (amino acids 257-377) was used as the immunogen for this TRP1 antibody.                                                                                                                                                    |
| Product Description        | It reacts with a 75kDa melanocyte-specific gene product, identified as Tyrosinase-related protein-1 (TRP-1). It is involved in melanin synthesis. TRP1 is present on the melanosomal membranes of melanoma, normal melanocytes and nevi. Recent evidence su... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                     |
| Clone Designation          | [TYRP1/3284]                                                                                                                                                                                                                                                   |
| UniProt                    | <a href="#">P17643</a>                                                                                                                                                                                                                                         |
| Purity                     | Protein G affinity chromatography                                                                                                                                                                                                                              |

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Form               | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide      |
| Antibody Type      | Primary Antibody                                                                |
| Application Dilute | ELISA (order BSA-free format for coating),Immunohistochemistry (FFPE): 1-2ug/ml |
| Application Notes  | Optimal dilution of the TRP1 antibody should be determined by the researcher.   |
