| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC-P                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | A portion of amino acids 258-385 was used as the immunogen for the recombinant CFTR antibody.                                                                                                                                                                 |
| Product Description        | Recognizes a protein of 165-170kDa, identified as cystic fibrosis transmembrane conductance regulator (CFTR). CFTR is composed of two membrane-spanning domains (MSD), two nucleotide-binding domains (NBD), and an R domain. It is structurally similar t... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [CFTR/6477R]                                                                                                                                                                                                                                                  |
| UniProt                    | <a href="#">P13569</a>                                                                                                                                                                                                                                        |
| Purity                     | Protein A affinity                                                                                                                                                                                                                                            |

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Form               | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                            |
| Antibody Type      | Primary Antibody                                                                          |
| Application Dilute | Immunohistochemistry (FFPE): 1-2ug/ml                                                     |
| Application Notes  | Optimal dilution of the recombinant CFTR antibody should be determined by the researcher. |
