| Category                   | Antikörper                                                                                                                                                                                                                         |
| Application                | IHC-P                                                                                                                                                                                                                              |
| Species Reactivity         | Human                                                                                                                                                                                                                              |
| Immunogen                  | A portion of amino acids 91-209 was used as the immunogen for the<br>Fibroblast Growth Factor 21 antibody.                                                                                                                         |
| Product Description        | Fibroblast growth factor 21 is a protein that in humans is encoded by<br>the FGF21 gene, a member of the fibroblast growth factor(FGF)<br>family. FGF21 stimulates glucose uptake in adipocytes but not in<br>other cell types.... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                         |
| Clone Designation          | [FGF21/4343]                                                                                                                                                                                                                       |
| UniProt                    | <a href="#">Q9NSA1</a>                                                                                                                                                                                                             |
| Purity                     | Protein A/G affinity                                                                                                                                                                                                               |

|                    |                                                                                                      |
|--------------------|------------------------------------------------------------------------------------------------------|
| Form               | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                              |
| Antibody Type      | Primary Antibody                                                                                     |
| Application Dilute | Immunohistochemistry (FFPE): 1-2ug/ml                                                                |
| Application Notes  | Optimal dilution of the Fibroblast Growth Factor 21 antibody should be determined by the researcher. |
