| Host                       | Mouse                                                                                                                                                                                                                                                           |
| Category                   | Antikörper                                                                                                                                                                                                                                                      |
| Application                | IHC-P                                                                                                                                                                                                                                                           |
| Species Reactivity         | Human                                                                                                                                                                                                                                                           |
| Immunogen                  | A portin of amino acids 107-222 from the human protein was used as the immunogen for the Fas Ligand antibody.                                                                                                                                                   |
| Product Description        | Cytotoxic T lymphocyte (CTL)-mediated cytotoxicity constitutes an important component of specific effector mechanisms in immunosurveillance against virus-infected or transformed cells. Two mechanisms appear to account for this activity, one of which is... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                      |
| Clone Designation          | [FASLG/4456]                                                                                                                                                                                                                                                    |
| UniProt                    | <a href="#">P48023</a>                                                                                                                                                                                                                                          |
| Purity                     | Protein A/G affinity                                                                                                                                                                                                                                            |
| Form                       | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                                                                                                                                                                                                  |

|                    |                                                                                     |
|--------------------|-------------------------------------------------------------------------------------|
| Antibody Type      | Primary Antibody                                                                    |
| Application Dilute | Immunohistochemistry (FFPE): 1-2ug/ml                                               |
| Application Notes  | Optimal dilution of the Fas Ligand antibody should be determined by the researcher. |
