| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC-P                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | A portion of amino acids 25-251 was used as the immunogen for the FGF-23 antibody.                                                                                                                                                                            |
| Product Description        | Fibroblast growth factor-1 (FGF-1), also designated acidic FGF, and fibroblast growth factor-2 (FGF-2), also designated basic FGF, are members of a family of growth factors that stimulate proliferation of cells of mesenchymal, epithelial and neuroect... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [FGF23/4169]                                                                                                                                                                                                                                                  |
| UniProt                    | <a href="#">Q9GZV9</a>                                                                                                                                                                                                                                        |
| Purity                     | Protein A/G affinity                                                                                                                                                                                                                                          |

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Form               | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide         |
| Antibody Type      | Primary Antibody                                                                |
| Application Dilute | Immunohistochemistry (FFPE): 1-2ug/ml                                           |
| Application Notes  | Optimal dilution of the FGF-23 antibody should be determined by the researcher. |
