| Manufacturer               | NSJ Bioreagents                                                                                                                                                                                                                |
| Host                       | Mouse                                                                                                                                                                                                                          |
| Category                   | Antikörper                                                                                                                                                                                                                     |
| Application                | ELISA, FACS, IF                                                                                                                                                                                                                |
| Species Reactivity         | Human                                                                                                                                                                                                                          |
| Immunogen                  | Recombinant full-length human protein was used as the immunogen for the ZNF562 antibody.                                                                                                                                       |
| Product Description        | Zinc-finger proteins contain DNA-binding domains and have a wide variety of functions, most of which encompass some form of transcriptional activation or repression. ZNF562 may be involved in transcriptional regulation.... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                     |
| Clone Designation          | [PCRP-ZNF562-1A1]                                                                                                                                                                                                              |
| UniProt                    | <a href="#">Q6V9R5</a>                                                                                                                                                                                                         |
| Purity                     | Protein A/G affinity                                                                                                                                                                                                           |
| Form                       | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                                                                                                                                                                 |

|                    |                                                                                                                |
|--------------------|----------------------------------------------------------------------------------------------------------------|
| Antibody Type      | Primary Antibody                                                                                               |
| Application Dilute | ELISA (order BSA-free format for coating),Flow cytometry: 0.5-2ug/million cells,Immunofluorescence: 0.5-2ug/ml |
| Application Notes  | Optimal dilution of the ZNF562 antibody should be determined by the researcher.                                |
