| Product Description        | Our Anti-Pan-MAGUK mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone K28/86. It detects human, mouse, rat, Xenopus, and zebrafish Pan-MAGUK, and is purified by Protein A chromatography. It is great for use in I... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.5 mg/mL                                                                                                                                                                                                                                                     |
| Clone Designation          | [K28/86]                                                                                                                                                                                                                                                      |

|                   |                                                                 |
|-------------------|-----------------------------------------------------------------|
| Molecular Weight  | 95-110 kDa (varies with cell background due to phosphorylation) |
| Isotype           | IgG1                                                            |
| UniProt           | <a href="#">P78352</a>                                          |
| Buffer            | PBS with 0.09% azide                                            |
| Target            | Pan-MAGUK                                                       |
| Antibody Type     | Primary Antibody                                                |
| Application Notes | Format: Purified by Protein A chromatography                    |
