| Species Reactivity         | Canine, Human, Mouse, Rat                                                                                                                                                                                                                                     |
| Immunogen                  | Fusion protein amino acids 2680-2749 (cytoplasmic carboxyl terminus) of rat type 1 IP3R (accession number P29994) produced recombinantly in E. Coli                                                                                                           |
| Conjugation                | FL650                                                                                                                                                                                                                                                         |
| Product Description        | Our Anti-IP3 receptor, type 1 mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone L24/18. It detects human, mouse, and rat IP3 receptor, type 1, and is purified by Protein A chromatography. It is great for use in... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                   |                                              |
|-------------------|----------------------------------------------|
| Clone Designation | [L24/18]                                     |
| Molecular Weight  | 300 kDa (varies due to glycosylation)        |
| Isotype           | IgG1                                         |
| UniProt           | <a href="#">P29994</a>                       |
| Buffer            | PBS with 0.09% azide                         |
| Target            | IP3 receptor, type 1                         |
| Antibody Type     | Primary Antibody                             |
| Application Notes | Format: Purified by Protein A chromatography |
