| Application                | ELISA, ICC, IP, WB                                                                                                                                                                                                                                            |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                  | Fusion protein amino acids 444-526 (extracellular disintegrin domain) of mouse ADAM22 (accession number Q9R1V6) produced recombinantly in E. Coli                                                                                                             |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | Our Anti-ADAM22 (extracellular) mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N57/2. It is KO validated, detects human, mouse, and rat ADAM22 (extracellular), and is purified by Protein A chromatography. It... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1 mg/mL                                                                                                                                                                                                                                                       |

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Clone Designation | [N57/2]                                                        |
| Molecular Weight  | 90 kDa                                                         |
| Isotype           | IgG1                                                           |
| UniProt           | <a href="#">Q9R1V6</a>                                         |
| Buffer            | 10 mM Tris, 50 mM Sodium Chloride, 0.065% Sodium Azide pH 7.20 |
| Target            | ADAM22 (extracellular)                                         |
| Antibody Type     | Primary Antibody                                               |
| Application Notes | Format: Purified by Protein A chromatography                   |
