| Category                   | Antikörper                                                                                                                                                                                                                  |
| Application                | ICC, IHC                                                                                                                                                                                                                    |
| Species Reactivity         | Rat                                                                                                                                                                                                                         |
| Immunogen                  | Fusion protein amino acids 42-354 of human Zinedin/Striatin-4 (accession number Q9NRL3) produced recombinantly in E. Coli                                                                                                   |
| Conjugation                | FL650                                                                                                                                                                                                                       |
| Product Description        | Our Anti-Zinedin mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone K88/64. It detects rat Zinedin, and is purified by Protein A chromatography. It is great for use in IHC, ICC.... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                  |
| Concentration              | 0.5 mg/mL                                                                                                                                                                                                                   |
| Clone Designation          | [K88/64]                                                                                                                                                                                                                    |

|                   |                                              |
|-------------------|----------------------------------------------|
| Molecular Weight  | 95 kDa                                       |
| Isotype           | IgG2a                                        |
| UniProt           | <a href="#">Q9NRL3</a>                       |
| Buffer            | PBS with 0.09% azide                         |
| Target            | Zinedin                                      |
| Antibody Type     | Primary Antibody                             |
| Application Notes | Format: Purified by Protein A chromatography |
