| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, ICC, IHC                                                                                                                                                                                                                                               |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                  | Fusion protein amino acids 360-445 (cytoplasmic C-terminus) of human GABA-A-R-Gamma2L (accession number P18507-2) produced recombinantly in E. Coli                                                                                                           |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | Our carrier-free Anti-GABA-A-R-Gamma2L/S mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N452/73. It detects human, mouse, and rat GABA-A-R-Gamma2L/S, and is purified by Protein A chromatography. It is great ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1 mg/mL                                                                                                                                                                                                                                                       |

|                   |                                              |
|-------------------|----------------------------------------------|
| Clone Designation | [N452/73]                                    |
| Molecular Weight  | 45-55 kDa                                    |
| Isotype           | IgG1                                         |
| UniProt           | <a href="#">P18507</a>                       |
| Buffer            | PBS                                          |
| Target            | GABA-A-R-Gamma2L/S                           |
| Antibody Type     | Primary Antibody                             |
| Application Notes | Format: Purified by Protein A chromatography |
