| Product Description        | CD8a (clone SK1) is a mouse monoclonal antibody that recognizes the human protein CD8. CD8a is a common marker of cytotoxic (Killer) T cells, and is a T cell coreceptor. This PerCP antibody conjugate has been validated in flow cytometry. It is suppli... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 25 ug/mL                                                                                                                                                                                                                                                      |
| Clone Designation          | [SK1]                                                                                                                                                                                                                                                         |

|                   |                                                                             |
|-------------------|-----------------------------------------------------------------------------|
| Molecular Weight  | 32-34 kDa (alpha chain)                                                     |
| UniProt           | <a href="#">P01732</a>                                                      |
| Buffer            | PBS, 0.1% BSA, 0.05% azide                                                  |
| Source            | Animal                                                                      |
| Application Notes | Recommended concentration for flow cytometry: 5 uL per million cells/0.1 mL |
