| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IF, WB                                                                                                                                                                                                                                                        |
| Species Reactivity         | Bovine, C. elegans, Canine, Equine, Feline, Gallus, Hamster, Human, Mouse, Porcine, Primate, Rabbit, Rat, Rodent                                                                                                                                              |
| Conjugation                | CF680R                                                                                                                                                                                                                                                        |
| Product Description        | Vimentin (rV9) is a recombinant mouse monoclonal antibody that recognizes Vimentin. This CF680R antibody conjugate has been validated in Immunofluorescence. CF dyes are Biotiums line of next-generation fluorescent dyes with advantages in brightness, ... |
| Clonality                  | Recombinant                                                                                                                                                                                                                                                   |
| Concentration              | 100 ug/mL                                                                                                                                                                                                                                                     |
| Clone Designation          | [rV9]                                                                                                                                                                                                                                                         |
| Molecular Weight           | ~54 kDa                                                                                                                                                                                                                                                       |

|                   |                                                                                    |
|-------------------|------------------------------------------------------------------------------------|
| UniProt           | <a href="#">P08670</a>                                                             |
| Buffer            | 1XPBS, 2 mg/mL rBSA and 0.05% sodium azide                                         |
| Source            | Animal                                                                             |
| Application Notes | Immunofluorescence: 1-5 ug/mL, Optimal concentration to be determined by end-user. |
