| Category                   | Proteine/Peptide                                                                                                                                                                                                                     |
| Application                | WB                                                                                                                                                                                                                                   |
| Species Reactivity         | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Rat, Zebrafish                                                                                                                                                                     |
| Immunogen                  | The immunogen is a synthetic peptide directed towards the N terminal region of human LRRC50                                                                                                                                          |
| Product Description        | LRRC50 contains 6 LRR (leucine-rich) repeats. It is proposed that LRRC50 to be a novel candidate gene for human cystic kidney disease, involved in regulation of microtubule-based cilia and actin-based brush border microvilli.... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                           |
| Concentration              | 0.5 mg/ml                                                                                                                                                                                                                            |
| Molecular Weight           | 80kDa                                                                                                                                                                                                                                |
