| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | The protein encoded by this gene is a member of the INK4 family of cyclin-dependent kinase inhibitors. This protein has been shown to form a stable complex with CDK4 or CDK6, and prevent the activation of the CDK kinases, thus function as a cell grow... |
| Concentration              | 1x10 <sup>10</sup> PFU/ml                                                                                                                                                                                                                                     |
| Buffer                     | DMEM, 2% BSA, 2.5% Glycerol                                                                                                                                                                                                                                   |
