Product Datasheet

Rat FTH(Ferritin, Heavy Polypeptide) ELISA Kit EBT-ELK6788

Article Name	Rat FTH(Ferritin, Heavy Polypeptide) ELISA Kit
Biozol Catalog Number	EBT-ELK6788
Supplier Catalog Number	ELK6788
Alternative Catalog Number	EBT-ELK6788-96, EBT-ELK6788-48, EBT-ELK6788-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	200 ng/mL
Range	3.13-200 ng/mL
Sensitivity	1.23 ng/mL
UniProt	P19132
Samples	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat FTH. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat FTH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat FTH, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat FTH in the samples is then determined by comparing the OD of the samples to the standard curve
